

PROJECT DESCRIPTION

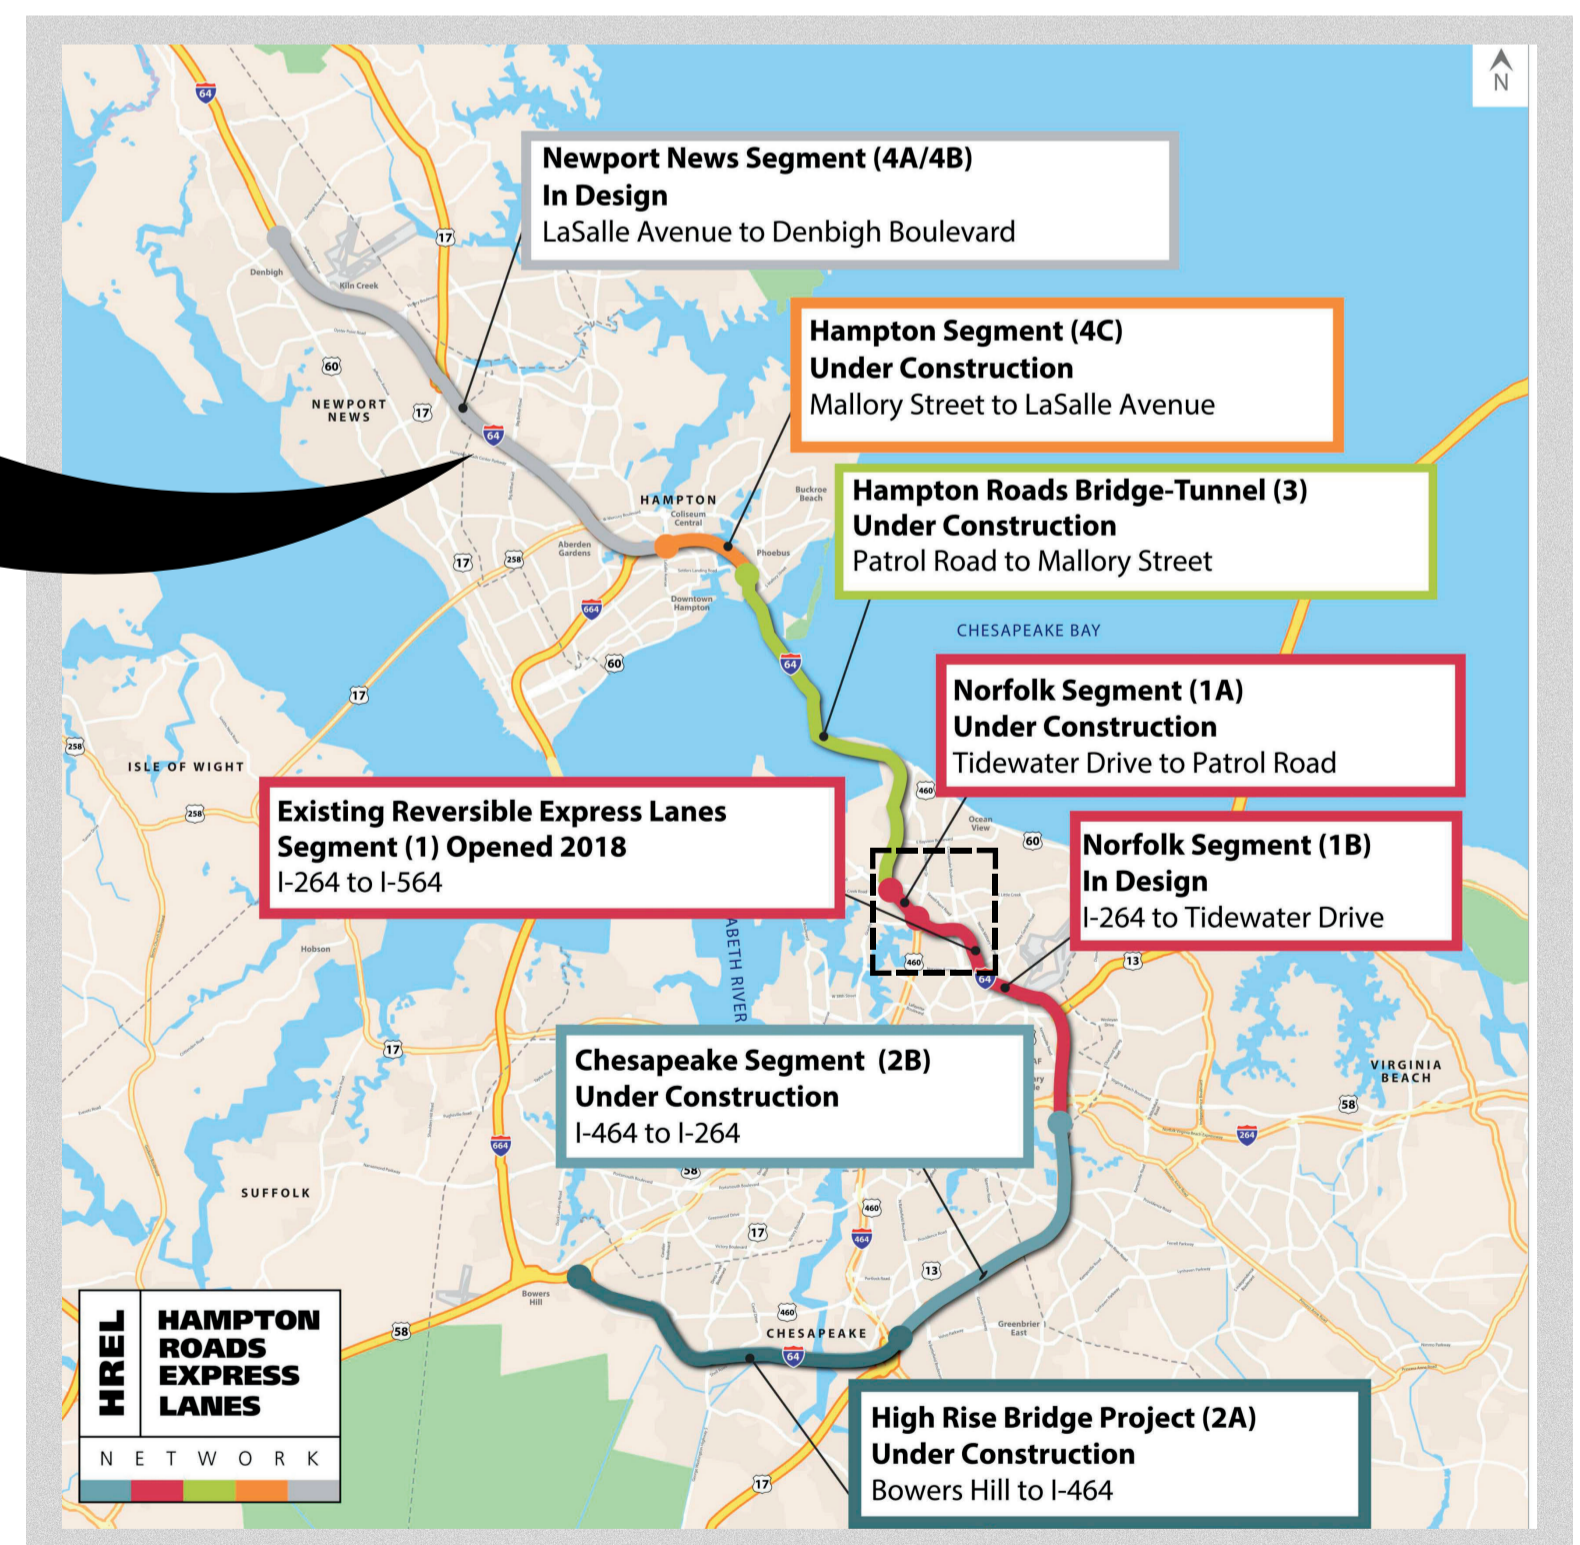

The HREL Norfolk Segment 1A will repurpose I-64 in both directions from Tidewater Drive to Patrol Road in Norfolk. The three existing general purpose (GP) lanes and shoulders will be converted to one part-time, high-occupancy express shoulder lane and three GP lanes for a total of two miles.

MAJOR WORK ITEMS INCLUDE:

- Two miles of shoulder rehabilitation/strengthening on I-64 east and west;
- Roadway widening in spot locations to maintain minimum shoulder width;
- Right of way acquisition in spot locations;
- Five bridge widening/rehabilitations:
 - I-64 east over I-564,
 - I-64 east over Granby Street,
 - I-64 east over Little Creek Road,
 - I-64 east over Tidewater Drive, and
 - I-64 west over Tidewater Drive;
- Three bridge rehabilitations:
 - I-64 west over Little Creek Road,
 - I-64 west over Granby Street, and
 - I-64 Reversible Roadway over I-564 and Little Creek Road;
- Tolling gantries and overhead signage; and
- Noise barriers

Construction Start: September 2023
Estimated Completion Date: Early 2026
Design-Build Contract: \$197.6 Million
